With this issue, The Climax begins the thirty-sixth year of its existence. The paper has been published continuously during all this time, although under several different managements. It has been under the present management since 1896. It is our earnest desire to give you a good paper, and we appreciate the generous assistance given us by the public. It is impossible to print a paper to suit every body, as is well known, but we strive our efforts to do what is right and treat everyone fairly. We appreciate suggestions from our subscribers, and are very thankful indeed, when given an item of news. It is impossible to get all the news, and any item phoned or handed over our representatives is thankfully received. From a business standpoint, we have by hard work managed to keep our paper to send away for work which can be done in offices of the home newspaper, and we, like the other publishers, have suffered therefrom. However, we are deeply grateful for the support received, and begin our new volume with renewed determination to give you a good paper, one loyal to its party and the people of Madison at all times and under all circumstances.

A California man claims to have discovered a process whereby the "drunk" is eliminated from whiskey without reducing its exhilarating powers. This leads Editor Beckham of the Frankfort Journal, to say, "If he is correct in his idea he will have contributed materially to the pleasure of the fellow who imbues largely as he would be enabled to own the earth and walk on it at the same time—a dual pleasure that has been denied him under the present system."

The colleges over the country about through with graduating exercises, and many "orators" have been turned loose upon the cold, cold world to begin the arduous task of finding work. Having spent the best part of their lives mastering different languages, they will now begin to scan the "Help Wanted" columns of the newspapers to find any old job at any old price.

The Shriners are holding Louisville up by the tail this week. The city has on its best bib and tucker and the meeting will be one of the most pleasant the Shriners have ever held. The Order of the Mystic Shrine is an auxiliary to the Masonic bodies—none can join save he has knight Templar. It has been rightfully called the play ground of Masonry.

MADE, some day, the news dispatches will give as much space to President Taft as they do to Private Citizen Roosevelt's hunting trip, but not soon. It is a great deal more interesting and more popular to hear the peevish lion in his den than it is to appoint a post master for some rural town.

"The afternoon of Thursday has been released," is the startling announcement in the Davville Advocate's society column. A great many newspaper men will be glad to hear it, as that is their time for going to press, and it would be hard to get along without Thursday afternoon.

A pretty and popular girl misses a good deal during the young couple's vacation.

You don't have all the troubles in the world. A New York man of wealth committed suicide, the other day, because he could not spend his income satisfactorily, as it kept accumulating too fast and spoiled all his rest hours. Let us pity the rich; the poor can pity themselves.

Those maps showing results of the local option elections mark the wet counties black, the dry counties spotted and those in which no elections have been held white. According to the color scheme the only pure county is the one that has not held an election.

Thoughts of cool lake breezes or sheltered nooks along a lazy river's bank are bound to interfere somewhat with a man's labors, these days.

What has become of the old-fashioned woman who used to say of a baby, "Well, no matter so long as it's healthy?"

We are not exactly certain that we prefer the golf stick to the bear rifle as the White House emblem.

Misses Nora and Minnie Zittle gave a pretty birthday party Wednesday afternoon from two to five o'clock in honor of their nephew, Clyde M. Lowrey, of Huntington, W. Va., and Elijah Brown Carrey, at Waco; their birthdays falling on the same date. About 30 little boys and girls were present and enjoyed the delightful afternoon. The color scheme was white and pink.

Money All Gone.

Under Wilson and his Republican State regime Kentucky now faces a deficit of \$1,500,000. And it is asserted by the Owensboro Messenger that the deficit is all the more serious, and all the more inexorable, from the fact that when Governor Wilson took office he found in the treasury the neat sum of \$1,400,000—all now gone and more than that sum with it.

The question is not one of politics but of State administration. It has nothing of partisanship in it. The question is one of cash, which the Governor found to the credit of the State when he took office, and which has been swallowed up through incompetent administration and through the enormous sums to which the State has been subjected during the so-called military campaign in which the Governor indulged in the year of grace 1908, and which terminated only recently without glory to the Governor or credit to the State.

There are today no less than \$800,000 of claims against the State unpaid. The administration of Governor Wilson not only signifies its incompetency in that regard, but also its incompetency by facinorous and inexcusable opposition to the appropriations made by the last legislature in aid of education through the normal schools of the State and through the university. If the administration of Governor Wilson could have controlled the judiciary and it could not—the educational appropriations would have left a handsome amount in the State treasury, which his administration could have utilized for other purposes, and the absolute failure of his administration would not have been so glaring. The educational interests of the State would have been retarded, but that would have been no figure with an administration which opposed the appropriations and sought the aid of the courts to defeat them.

Notes.

Johnson seems to be able to play anywhere. His playing at short in Tuesday's game was a revelation to the fans.

Glenn will not be missed so much when the boys have had time to get over the shock.

Lexington has been greatly strengthened by the addition of Harper on first base. He is playing a nice game and seems to have put new life

Lost To Lexington.

In a listless, uninteresting game the Pioneers went down in defeat last Tuesday at the hands of the Lexington Colts.

The Richmond team was somewhat crippled by the absence of Glenn, who took a leave of absence without the knowledge of the management, while before time to play. So sudden was his leaving it seemed to disorganize the entire team. Whittaker was called in from left field and put on second base, Johnson going to short and Parrish to left. All of the men played very well in their new places, especially Johnson, but there was a lack of team work, and a great lack of ginger on the part of the entire team.

Stone was on the slab for Richmond and performed fairly well, but he too, seemed to be suffering with the same trouble the other players were, lack of life, and allowed three of Lexington's six hits, in the fifth inning, which netted them three runs. The home boys got two more hits than the visitors, but they usually came after two men were out, consequently but few runs could be scored.

Robbins started in to pitch for the Colts and did his duty well until Manager Sheets became frightened in the seventh inning and yanked him out and sent Baker in. Why he did this we could not understand, for he was doing nicely and would have won his game if left alone.

Won Good Game.

Those who failed to see the game Thursday between the Pioneers and the Lexington Colts, missed one of the best games of the season.

Although the grounds were a little heavy from recent rains, the fielding of both teams was fast and the score was kept down by classy work.

"Happy" Doyle made his first appearance of the season in the box for Lexington, and, except in the first inning, he held our sluggers safe. He was especially strong with men on bases, eleven Pioneers being left. On one occasion the first three men to face him made hits, and still he retired the side without a score. Although Richmond won by the score of 5 to 0, it really should have been 0 to 0, for our two runs were made on errors.

Creager pitched for Richmond, and it was his mastery work that won the game for us. Only three hits were made off his delivery, all of them by Dunning, and as a consequence the Colts were not dangerous at any time. They were as helpless before him as babies and he toyed with them throughout the game.

The score:—123456789—R  
Richmond...200000000—2  
Lexington...000000000—0

Summary: Hits Richmond 7, Lexington 3. Two bases hits, Dawson. Bases on balls, Off Doyle 5. Struck out, by Creager 4, by Doyle 4.

Loss To Frankfort.

Our sturdy athletes went to Frankfort Friday for a series of two games with the Lawmakers and they succeeded in losing the first one by the score of 5 to 3.

The game started off like it would be easy for the Pioneers, but as it grew older it was seen that they were up against a hard proposition. Everything went nicely for the Pioneers until the fifth inning, when Goddard, who was pitching for Richmond, lost his cunning and the Lawmakers found him for enough hits to net three runs.

At this juncture, Knox was called in from center and put in, but two more runs were scored before the side could be retired.

This was all the Lawmakers could do, but it was sufficient, for three scores were all our boys could get.

McDowell did the pitching for Frankfort, and although he won his game, it was by a close margin, for on more than one occasion a hit by a Pioneer would have won the game for Richmond.

Revenge.

The Lawmakers got sweet revenge Saturday for the large score by which they were defeated while on their last trip here, by giving the Pioneers the worst defeat they have received this year.

The contest was too one-sided to be interesting. The Lawmakers pounded two of our pitchers numerically, getting 22 hits, good for 15 scores. Knox was the first pitcher sent in and in two and one third innings the Lawmakers found him for 10 hits and four scores. Creager was then sent to the rescue, but his life boat was not in good condition, and the whole team went down under the overwhelming scores of 15 to 3.

"Risky" Wright was in the box for the Lawmakers and his pitching was too much for our batter, getting only seven scattered hits.

The most unfortunate thing of the whole game was the accident which befell Johnson. In the fourth inning in sliding to second his ankle was badly sprained and he had to be carried from the field. This is greatly to be regretted, for the team is already somewhat patched up and this will make us still weaker. It is to be hoped, however, that the injury is not serious as has been reported. Johnson is one of the most valuable men on the team and his absence will be keenly felt.

Zimski, the new short stop played his first game with the team, and he had two errors, but they were likely due to nervousness rather than to lack of ability. Anyhow we will suspend judgement until we see him perform on the local lot.

At Lexington Sunday, Richmond was again defeated by the close score of 1 to 0. Three thousand fans saw the game. Knox and Dawson composed the battery for Richmond. The only score made was by Doyle in the seventh.

Notes.

Johnson seems to be able to play anywhere. His playing at short in Tuesday's game was a revelation to the fans.

Glenn will not be missed so much when the boys have had time to get over the shock.

## BASE BALL

into the team.

"Pud" Parrish made a record in Thursday's game. Although he faced the pitcher four times, he was given a time at bat. He got his base on balls three times and was hit by a pitched ball the other time. Neither did he have a put-out, and assist on error. In fact he was not in the game so far as the official score shows.

"Silly" Creager is certainly pitching great ball these days. Only eight hits have been made off of him in the last three games. He is rapidly becoming the idol of the fans.

Although Doyle failed to make good at Montreal, he will show the Blue Grass leaguers something before the season is over. He has certainly got the goods.

Dawson is the Wagner of this league. The pitchers refuse to put them anywhere near the plate when men are on bases. He gets too anxious to hit sometimes and reaches for v. de ones. Let them go by happy, and walk!

"Old Whit" is some infielder that you. He has been playing second base like a Huggins. He is good any where you put him.

There is the best catcher in the league about coaching and encouraging the pitcher. He is always talking. He is the right man in the right place.

A postal from Pres. Kellough, who is in Canada, says he is hunting for batters who can hit any pitcher, and for pitchers no batter can hit. That would make a great combination.

You can positively wash away all those itching skin diseases which come in the summer time. You can wash away with a soothing lotion of Oil of Wintergreen, properly compounded.

The instant this mild, soothing liquid is applied that awful itch is gone. Eczema sufferers all over the world, who have used the O. I. of Wintergreen Compound, have testified to the merits of this O. I. as compounded in D. D. Prescription.

You are suffering from summer rashes, poison ivy, poison oak, straw-berry rash, or the more severe forms of heat, you will find this D. D. Compound a sure relief from the itch sold by Stockton and Hagau.

Picnust Promises.

Georgetown Times: Before the presidential election, the people were led to believe that the Republican party would give them some relief by reducing the tariff on a number of articles that entered largely into general use and consumption, but they are opening their eyes to the fact that they have been deceived. In the tariff plank of the Republican party a revision was promised. The people knowing that they wanted, very naturally concluded that revision and reduction means one and the same thing. They were purposely misled. Senator Aldridge and other extremists now tell the public that revision meant an increase or a change upward. The people have been deceived; that is, so many of the people as ever believed that Republican party would bring any relief in this direction.
